

Preet Dave

AI / ML Engineer

Ahmedabad, India · iampreetdave@gmail.com · +91 90810 25277 · github.com/iampreetdave-max · linkedin.com/in/preet-dave-452023271 · iampreetdave.me

SUMMARY

AI/ML Engineer specializing in applied machine learning, LLM/agentic systems, and computer vision, shipping client-facing ML software end to end — from feature engineering and forecasting to RAG pipelines, agentic LLM workflows, and offline CV systems, backed by FastAPI/Next.js services, Docker, and CI. Promoted from ML intern to full-time engineer; B.Tech CSE (AI & ML), expected 2026.

EXPERIENCE

AI/ML Software Engineer · Agility Mar 2026 — Present · Gujarat (On-site)

- Develop and deploy machine-learning models in direct collaboration with clients, translating business needs into production features that enhance existing software.
- Lead delivery on client ML projects at a fast-moving startup, owning problems from data and modelling through deployment.
- Promoted from Machine Learning Intern (Sep 2025 – Mar 2026) to full-time engineer over a 10-month tenure on the strength of real-world delivery.

Project Lead · Gujarat Technological University (GTU) Oct 2023 — Present · Gujarat

- Lead development of CodeTransform, a Python ↔ JavaScript code converter, from inception to a GTU state-level Design Engineering presentation; designed the architecture while building the product.

Student Intern, AI/ML · Stealth AI Startup Jan 2025 — Aug 2025 · Remote

- Owned ML models and pipelines applying reinforcement-learning techniques; built an MVP, pitched it to partners, and helped prepare the project for a Y Combinator application.

Team Lead · Smart India Hackathon (SIH) Aug 2024 — Dec 2024 · National

- Directed a team building a virtual herbal garden with detailed 3D models, presented at the national level.

SELECTED PROJECTS

Therma Netra — Digital Twin of India's Climate. AI digital twin on national datasets (IMD/INSAT/IMDAA/CPCB) powering forecast, urban-heat & air-quality apps; built for ISRO BAH 2026 (PS #5). Python · Streamlit · Climate ML

CityShield · VisionScan — Unified AI Policing Platform. Offline (CPU) platform fusing physical + cyber crime on a GIS map; CCTV anomaly → case → patrol dispatch; 77 backend tests. Built for KANAD S.H.I.E.L.D. 2026. FastAPI · CLIP · FAISS · YOLOv8 [repo](#)

Arbiter — Agentic Legal AI. Gemini agents (Google ADK) research live law and draft 6 document types across 5 jurisdictions; deployed on Cloud Run. Built for XPRIZE "Build with Gemini" 2026. Next.js · FastAPI · Gemini ADK [repo](#)

AI Race News — AI/ML News Aggregation Platform. Ingests 110+ sources every 15 min with 3-layer dedup and 12-category auto-tagging, served via a public FastAPI REST API. FastAPI · APScheduler · Docker [repo](#)

Sports Match-Prediction Engines. Production ML suite (NBA · soccer · NASCAR) with live-odds features and daily GitHub Actions runs, P&L-graded against real results — tracked +16.5% ROI on Grade-A NBA picks, 66.3% moneyline win rate (1,064 games), 4,084+ predictions logged. XGBoost · LightGBM · PostgreSQL [repo](#)

SKILLS

Languages: Python, C/C++, JavaScript, TypeScript, SQL, HTML/CSS

ML & Deep Learning: scikit-learn, XGBoost, LightGBM, TensorFlow, PyTorch, pandas, NumPy, feature engineering

AI / LLM & Agents: LLMs, RAG, Claude API, Claude Agent SDK, Model Context Protocol (MCP), Google Gemini ADK, FAISS / ChromaDB

Computer Vision: YOLOv8, CLIP, TrOCR, InsightFace / ArcFace, OCR

Backend & Infra: FastAPI, Next.js, React, Docker, GitHub Actions / CI, Azure, Google Cloud Run, Supabase, Streamlit

EDUCATION

B.Tech, Computer Science & Engineering (AI & ML)

NLJIET — Gujarat Technological University (GTU), Ahmedabad · 2022 – 2026 (expected)
